

Scoutbook Account Setup - Parents

These instructions will guide parents through the process of setting up your Scoutbook account and grant access to your Scout.

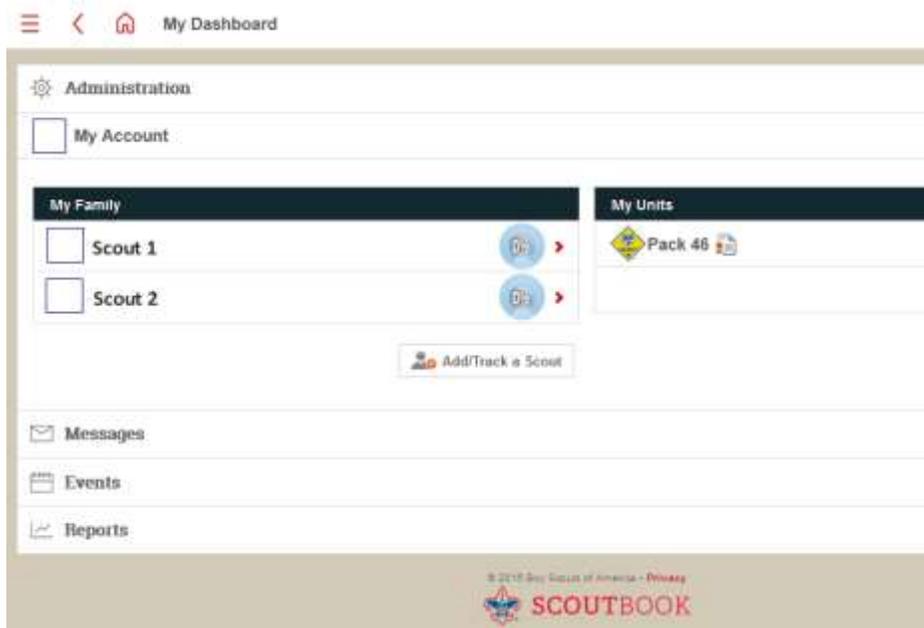

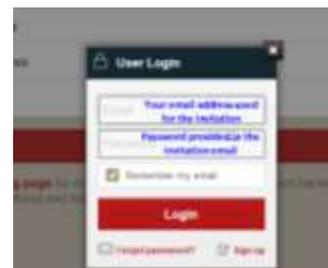

Parents will receive an invitation to join Scoutbook. A username and password have already been generated and will be listed in the invitation email.

Click on the “Learn More and Login Now” button in the email to get to Scoutbook.com then click on “Login” at the upper right of the site.

After clicking login, the next page will have a User Login box. Enter the username and password included in your invitation email, and click “Login”.

Once logged in, click “My Dashboard” to navigate to your main dashboard page. Here you will see buttons for “My Account” and a list of your Scouts under “My Family”. The link to my Account allows you to update your demographic information, post an avatar picture, change your password, etc.

Clicking on the Scout’s name will take you to their detail screen.

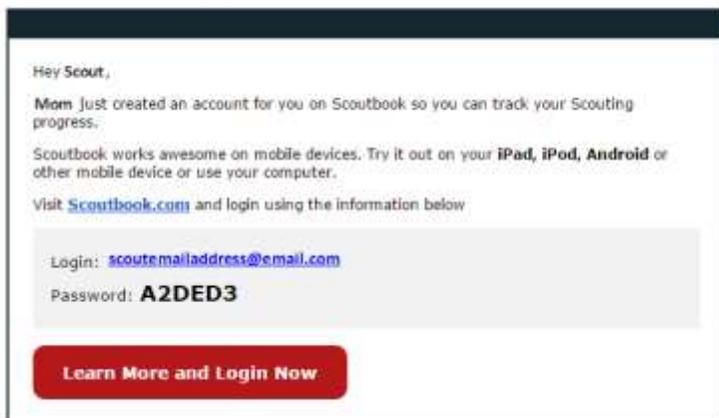

You can update their demographic information, view their advancements, change their avatar, and more.

GRANDING YOUR SCOUT ACCESS TO SCOUTBOOK

Only parents can grant access for Scouts to view their Scoutbook record. From your Scout's edit profile link on the Scout's page, scroll to the bottom of the page and click "Invite to Connect" and enter the Scout's email address.

The Scout will receive an email invite similar to the invite parents receive including their username and password.

The council has some video helps here:
